
THE JUNIOR MENTOR COMMENCEMENT

Lenny Thobejane

What is The Junior Mentor?

The Junior Mentor is a mentorship program that trains aspiring software engineers, Data Science Specialists, Cybersecurity and IT professionals by providing hands-on experience, real-world projects, and industry guidance. It helps juniors build strong portfolios, collaborate with peers, and gain the skills needed to secure tech jobs.

This is an entry level position, juniors are not expected to know lot, and will comprehensive training

Vision

To create a world where aspiring IT professionals gain real-world experience, build strong portfolios, and collaborate with like-minded individuals—bridging the gap between learning and employment without financial barriers

Mission

At The Junior Mentor, through collaborative learning, expert supervision, and career support, we aim to transform beginners into job-ready professionals.

Hello I am Lenny Thobejane.

Software Developer at **Resolute
Education**

Final year BSc Mathematics and
Computer Science student at UNISA

Founder (The Junior Mentor)
